

This is a technical street map from a Brazilian cadastral or legal database. It depicts a neighborhood with numerous small lots and streets. A prominent feature is a large, irregularly shaped area shaded in light yellow, which is outlined by a thick yellow border. This highlighted area appears to be a specific parcel of land being referenced in the accompanying legal text. The surrounding streets are labeled with their names in Portuguese, such as 'RUA DO CARVALHO' and 'RUA DO SOL'. The map also includes a coordinate grid, with latitude and longitude values marked at the corners: -40°26'33" and -40°24'47" for latitude, and 26°00' and 25°00' for longitude.

Escala : 1 : 5,900
